

# Debens Soundings

ArtSpace – Thoroughfare - Woodbridge  
10am - 5pm daily - 18-22 September 2020

# Imagining the Measure of Change

We would like you to join us for the first public event for our research project - **Imagining the Measure of Change: art, science and the estuary community** - coordinated by Simon

Read and Helene Burningham, in collaboration with the Deben Estuary Partnership.

Our aim over the coming year is to promote a broader understanding of the Deben through a series of participatory workshops conducted at key locations upon the estuary, and we welcome expressions of interest in participating in these events.

## The Deben Estuary Plan

The context of this project is the need to review and revise the Deben Estuary Plan. Prompted by the changes since the publication of the current estuary plan in 2015, we are embarking upon a journey to gather more information, engage more people, and take soundings of the depth of knowledge upon the estuary within our local communities.

## Deben Soundings

We welcome visitors to our exposition at ArtSpace, where we will show some of the key resources that help inform decisionmaking for the estuary, and a range of old and new surveys of the Deben. We are keen to capture **your** knowledge, so please visit us to explore the display and contribute your thoughts and concerns. You can arrange a visit slot in advance, or just drop by during opening hours.
